Produced by Communications and Marketing, College of Agriculture and Life Sciences, Virginia Tech, 2017

Virginia Cooperative Extension programs and employment are open to all, regardless of age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, genetic information, veteran status, or any other basis protected by law. An equal opportunity/affirmative action employer. Issued in furtherance of Cooperative Extension work, Virginia Polytechnic Institute and State University, Virginia State University, and the U.S. Department of Agriculture cooperating. Edwin J. Jones, Director, Virginia Cooperative Extension, Virginia Tech, Blacksburg; M. Ray McKinnie, Administrator, 1890 Extension Program, Virginia State University, Petersburg.

VT/1017/406-123/4H-837P

Instructions for Using this Record Book

This book is designed to be the place where you keep records on your project. Read through the book carefully and complete all sections. It is important that you do your own work, but ask your 4-H leader, Extension agent, parents, or other 4-H volunteers for help when you do not understand something.

- 1. Obtain the appropriate record book based on the project you selected.
- 2. Read through this book and familiarize yourself with the kinds of records you will need and where information should be recorded. Discuss the book with your parent and/or 4-H leader.
- 3. Complete the essential information when you first start your project, such as the cover page and the project planning pages. Share your goals with your 4-H leader.
- 4. Keep your records up-to-date. Record information as it occurs. Consider setting aside specific times during the project when you will work on your record book and have those pages signed at the start of the 4-H year.
- 5. Write neatly and legibly. Use only one color of ink. This record book is PDF writable and may be completed digitally or hand-written.
- 6. Include at least one photograph of you with your project, but do not include more than two pages of photos. Additional clippings should be displayed in a scrapbook, not this record book.
- 7. Maintain your book in a 3-ring notebook/binder or folder.
- 8. Write a project story that captures what happened during your project. Discuss your goals, your activities, your challenges, and your accomplishments. Project stories must be at least ten sentences; more experienced 4-H members' stories should be considerably longer and more thorough.

Authors: 4-H Youth Development Agents Kelly Mallory, Kaci Coppedge, Cyndi Estienne, Mary Elizabeth Williams, Jocelyn Dailey, Sam Leech, Cornelia Estep, and Leslie Prillaman; Agriculture and Natural Resources Agent Carrie Swanson;
 4-H volunteers Bertha Durbin, Janine Wilson, Lindsey Williamson and Sandra Turner; Extension Animal Science Specialist Mark Wahlberg; Extension Equine Specialist, Celeste Crisman, and Associates, Sandy Arnold and Leona Ransdell; and Extension Dairy Science Specialist Dave Winston.

Project Planning and Goal Setting for the Rider/Handler

This page should be completed at the start of your project, and you should share it with your 4-H leader.

Set at least three goals for yourself to accomplish this year with your project animal.

1. What do you want to learn and accomplish?

2. What new activities do you want to try?

- 3. What plan of action will you take to reach these goals stated above?
- 4. Will you be earning income or barter work to directly offset expenses for your project? If so, identify how. Please tell us about your project (check all that apply) I own my project Project Name(s) I borrow my project I lease my project I board my project I stable my project at home

Project Planning and Goal Setting for the Animal

- 1. What factors helped you to select your project and why (purpose, breed, age, cost, location of animal, etc.)?
- 2. Where will the project be stabled? If boarding your project, name location and factors which helped you select the facility.
- 3. Describe a plan for your horse's activities (training, conditioning, schooling, showing, pleasure, trail riding, etc):
- 4. Identify any potential facility or land improvements (barn, fencing, pasture management, watering systems, etc.) if this affects your project.
- 5. Budget Projection. Anticipate your potential expenses and income.

	Estimated Expenses	Estimated Income
Project Animal (if purchasing or selling this year)	\$	\$
Tack, Equipment, Supplies	\$	\$
Feed (hay production)	\$	\$
Health Care (vet, farrier, etc.)	\$	
Other (lessons, training, leasing, boarding, fees, etc. List your income or barter value only if it will be used to offset expenses of this project.)	\$	\$
Shows (entries, travel, etc.)	\$	\$
Totals	\$	\$

After completing page 4 and 5, show this to your 4-H leader for their signature at the start of the 4-H year.

Leader's Signature: _____

Date:

Horse Project Inventory Record (one chart for all)

		Date Obtaine	d						
Name of Horse	Description (breed, color, registration number, sire and dam, brand, tattoo, etc.)	Coggins Accession Number	Height	Weight	Age	Sex	Foaled (Born)	Purchase or Lease Date	Value

Animal Care and Management (one chart for all projects)

An animal project requires regular care and management. List the things necessary to take care of your project. Identify if certain tasks are carried out by anyone if other than you (ex: stable/farm managers, horse trainer, vet, farrier, etc).

Include the following:

- Feeding and watering practices
- Grooming (clipping, trimming, hoof care, etc.)
- · Health practices and medicines
- General management (cleaning living area and feed pans, tack, halter breaking, training, etc.)

Daily – Things done every day					
Weekly – Things done once a week					
Monthly – Things done once a month					
Yearly – Things done one time or occasionally throughout the year					

Tack, Equipment, and Supply Inventory (one chart for all)

For purchased items and already owned inventory on hand.

List equipment, tack and supplies already on hand at the beginning of the year and add new items as they are purchased. If equipment is shared between 4-H members, divide the cost between members (example: 1 set of clippers shared between 3 members \$250/3 = \$83.00 each).

Original Value/Purchase Price: Only list expenses from the current 4-H year.

Asset Value: Assets represent items that can be converted into cash. Wear and tear occurs on equipment used year to year therefore, items will depreciate. Consider this when putting a dollar value on each asset.

Number and Kind	Already Owned or Purchased	Original Value/ Purchase Price	Asset Value
Ex: 3 used rope halters	owned		\$9.00
Ex: new saddle	purchased	\$800.00	\$700.00
Ex: fly spray	purchased	\$15.00	\$0.00
	^	\$	\$
		Actual Total Expenses	Total Asset Value

Riding/Training Record

This record is intended to help you follow the progress of any riding/ training goals. It can be filled out on a daily or weekly basis depending on the amount of training or riding you do. Add additional pages as necessary.

6 hours / week	Horse travels too fast at lope	Teach horse to go slower at the lope	
		at the lope	Horse moving slower.

2. Are you satisfied with your horse's current Body Condition Score? _____ If not, what measures will you take to improve your horse's BCS?_____

*See https://www.vetmed.vt.edu/vth/services/equine/docs/BCS_Chart.pdf for more information on assigning a Body Condition Score for your project.

Pasture Analysis and Expenses

PASTURE ANALYSIS

In your horse's grazing pasture(s):	
What type of grass represents the highest	volume?
Are these grasses warm or cool season? _	
What weeds can be identified throughout the	he year?
	o, with what product?
	o, when, how and with what type of seed?
To what height do you mow your pasture(s	3)?
If a soil analysis was ordered, answer the fe	ollowing questions:
Date of analysis: Date of the	reatment: pH level of soil:
Summarize the suggested fertilizer and tre	eatment:
(You may wish to attach th	he soil sample analysis to this record)
Horse Pasture Management Questions:	
Where your horse is kept, how many horse	es graze per acre?
Do you practice rotational grazing?	
Do you have sacrifice lots/paddocks?	
How many hours will your horses typically g	graze per day? Fall: Winter: Spring: Summer:
How is water provided to your horse in the	pasture?
Do the horses have shelter in this pasture?	? if so, describe:
Describe the type of fencing used:	
Would you make improvements to water or	r fencing? if so, explain:
	topance (mowing fortilizing enroving etc.)

Who does the majority of the pasture maintenance (mowing, fertilizing, spraying, etc.)

PASTURE MANAGEMENT EXPENSES

Maintaining a pasture requires fertilizer, lime, seed, mowing (labor and fuel), repairing fence boards, etc. Estimate the cost of providing pasture for your horse(s). Divide the cost by the number of horses using the pasture. If you are boarding, ask the farm manager to help you assess and estimate expenses. See your Extension agent for soil testing kits. List equipment purchases and assets on page 9.

Item	Description	Cost
Products and services: soil test, hay analysis, fertilizer, lime, seed, herbicides, pesticides		
Equipment: farm equipment, repairs, fuel, rentals, fencing, water, gates (new or repair)		
Labor		
	TOTAL EXPENSES	=
	NUMBER OF HORSES ON PASTURE	÷
	COST PER HORSE	=
	MONTHS PER YEAR	÷ 12
	MONTHLY COST PER HORSE	=

Hay Analysis

Next to water, forages should be the majority of your equine's nutrient intake for proper digestion. A visual analysis of your hay is of daily importance; however, a chemical analysis will give you the specific nutrient content for each cutting of hay and will help you to determine a proper balanced ration for an adequate diet.

VISUAL ANALYSIS:

Give a visual analysis of a cutting of hay that you are currently feeding your horse to answer the following.

Date of visual analysis:

Type of hay (timothy, fescue, mixed, orchard, etc):

Maturity and leafiness (bloom, amount of seedhead shown, and stems vs. leaves):

Color (describe a shade of greens, yellows, or browns):

Odor and condition (describe the smell, dust-free, moisture, temperature):

_____(DO NOT feed musty, dusty or moldy hay)

Foreign materials (other plants and weeds – note what is found):

CHEMICAL ANALYSIS:

You may want to order a hay analysis from one cutting of hay that you are currently feeding to your horse. Take several samples from at least ten bales of one cutting, mix them together and send to a forage lab of your choice in a clean, tightly sealed, quart-sized plastic bag. Extension agents should have a hay probe available in order to obtain a hay core sample.

Type of hay tested: _____ Date of test: _____

Nutrient Profile	Percentage Dry Matter
Crude Protein	
Lysine	
Lignin	
Acid Detergent Fiber (ADF)	
Neutral Detergent Fiber (NDF)	
Digestible Energy (DE)	
Water Soluble Carbs	
Simple Sugars	
Starch	
Relative Feed Value (RFV)	

For more information about reading your hay analysis, go to http://www.extension.umn.edu/agriculture/horse/nutrition/equine-hay-analysis/

Forage lab suggested contacts: search online for Cumberland Valley Analytical or EquiAnalytical

Feed Tag Information

1.	Product name:
2.	Feed format: pelleted textured whole grain
3.	Purpose statement: What equine production level is this feed designed for? (<i>Ex. maintenance, performance, etc.</i>)
4.	Guaranteed analysis: What is the percentage
	crude protein? crude fiber? crude fat? NSC (sugar + starch)
5.	Ingredients: What are the top three main ingredients in this feed?
6.	Feeding instructions: What is the feed tag label's recommended feeding instructions for your project?

Please attach the feed tag label here or insert a page if label does not fit in the space provided. If a customized mix is used, please describe the mix.

Calculate Monthly Cost of Feeds

Use this as a worksheet to calculate the monthly cost for grain, hay, and supplements. Carry these costs forward to the following page to calculate the annual cost of feeding your animal. Keep in mind, these amounts could vary with grazing seasons and equine nutritional needs (workload, condition, etc.) therefore, use copies of this worksheet to recalculate totals as changes occur.

Grain

Cost of a bag of grain: \$; ÷	_lbs in the bag = \$	per lb
Amount fed:	lbs per day X	days (in month) =	lbs
Monthly cost of grain: \$	X (Cost per lb of grain)	lbs = (Total amount fed)	(Monthly Cost of grain)
Нау			
Cost of a bale of hay: \$	÷	lbs per bale = \$	per lb
Amount fed:	lbs per day X	days (in month) =	lbs
Monthly cost of hay: \$ _	(Cost per lb of hay)	lbs =	(Monthly cost of hay)
Supplements			
Cost of the jar of supple	ments: \$	÷ oz in contai	ner = \$ per oz
Amount fed:	oz per day X	days (in month) =0z
Monthly cost of suppleme	ents: \$ (Cost per oz	X oz z) (Total amount fed)	= (Monthly cost of Supplement)

Questions

- 1. Explain how your actual Financial Summary compared to what you estimated at the beginning of the project with your Budget Projection? (See page 5, #5)
- 2. Looking ahead for next year, what factors do you anticipate will affect your expenses and income?

Fair Market Value

Every project has a value, even those which are leased or borrowed. If you do not own the animal, ask the owner if they will work with you to help determine the value of the project. Give an estimated value of your project animal at the end of the project year.

Project Name	Project Value
	\$

Activities Outside 4-H

What other clubs or groups did you belong to this year? (school, church, community, etc.) Additionally, list any leadership roles held in these clubs or groups.

List any activities you participated in for scouts, sports groups, church, community service, etc. that were not affiliated with 4-H.

Date	Activity	Group	Comments

4-H Horse Project Story

The motto of 4-H is "learn by doing." Each year we learn something new by participating in a 4-H project. Please write a story that explains:

- What you have learned
- New skills you have gained over this past year in 4-H

- Goals you accomplished. If you accomplished your goals, how did you do so?

Other examples that you may consider writing about include: something that happened that was funny, sad, or exciting; challenges you faced and how you overcame them; who helped you with your project and how they contributed; things you are most proud of. Feel free to relate your 4-H experience to other parts of your life (school, home, family, friends, etc.). **Senior members' stories should be at least 10 sentences long, well thought out, and talk in depth about your 4-H project year.**

Additional Records

** Please include the following documents: **

1) A copy of each project's Coggins

2) A copy of each project's Green Measurement Card

3) Your completed Horsemanship Skills Evaluations

4) A copy of each animal's 4-H Project Horse Eligibility/Declaration form (Pub 406-125/4H-710P)

Publication 406-125 (4H-710P)

County/Unit

4-H Project Horse Eligibility/Declaration

A completed signed copy of this form along with three clear photos of groomed horse (directions on second page) must be submitted for each project horse. It is the 4-Hers responsibility to accurately complete and submit this form to the Extension agent by May 1 of each year. 4-Hers not declaring their 4-H Project Horse(s) by May 1 of each year will be ineligible to exhibit their horse(s) at the District Qualifying Shows or Clinics and State 4-H Horse Shows. The Extension agent will sign and date this form upon receipt and retain the original form.
